June 21, 2024

Dear Parents and Guardians,

We have been informed of positive COVID cases at the Matheny School and your child may have been exposed.

The core recommendation from the CDC is that all people use prevention strategies to protect themselves and others. When you are not feeling well please take the following steps to prevent illness transmission. If you have been exposed, please test initially and again on day five, mask, and monitor for symptoms. If your child tests positive, contact your healthcare provider and the school health office for instructions. We will keep you informed of any new developments.

Sincerely,

Sean Murphy, School Principal/Director
